Geologist/Geophysicist Intern Job Description

Position: Geologist/Geophysicist Internship

Job Location: Houston, TX

Education: Has completed at least 2 semesters towards a Master’s or at least 4 semesters towards a PhD in a geoscience-related field, preferably within one year of expected degree date.

Position Summary

Hess Corporation, with headquarters in New York, is a global integrated energy company engaged in the exploration, production, purchase, transportation and sale of crude oil and natural gas, as well as the production and sale of refined petroleum products. More information on Hess Corporation is available at www.hess.com.

The Exploration and Production (E&P) division is the engine of future income and growth for the company. We have a strong leadership team and a global organization implementing a focused strategy that has positioned Hess Corporation for long-term financial performance.

As a Geologist/Geophysicist intern, you will become an immediate asset to Hess by working relevant projects while enhancing your skill set.

Job Description

There will be involvement in projects with significant impact in one or more of the following Business Unit areas:

- Offshore Gulf of Mexico
- International Exploration Group
- Geophysical/Geological Technology Group
- Production or Development of Hess Oil/Gas Fields

Working alongside a designated Geoscience Mentor you will have the opportunity to work on projects which include the following:

- Compile, interpret and integrate geophysical/geological data for regional scale interpretations, prospect generation or lease evaluation
- Integrate petrophysical and geological information to investigate and develop different rock physics relationships at both regional and field development scales
- Utilize computer workstations to enhance accuracy of geoscience interpretations by applying processing, modeling, 2D & 3D seismic mapping, attribute analysis, and utility software as necessary

Skills/Competencies

- Possess a high level of achievement within a Geosciences academic program
- Possess an above average level of understanding of the E&P Industry (internships)
- Intellectual curiosity
- Ability to work as a team player
- Ability to think critically
- Ability to be motivated and to motivate others
- Excellent written and oral communication skills
• Promote the Hess Corporate Values of Integrity, People, Performance, Value Creation, Social Responsibility and Independent Spirit

Generally the internship period is May through August and lasts approximately 12 weeks. We prefer your resume to include your date of graduation as well as your overall GPA. Also include a copy of your most recent transcript.

Hess is an equal opportunity and military friendly employer.
