

Miquela Ingalls

Pennsylvania State University | Department of Geosciences

ingalls@psu.edu | ingallslab.com

RESEARCH INTERESTS

Low-T stable isotope geochemistry; Chemical sedimentology & diagenesis; Geobiology; Ancient environments

EDUCATION

The University of Chicago 2017

Ph.D. in the Geophysical Sciences

Dissertation: *Subduction and uplift of continental crust in the India-Asia collision zone: Clumped-isotope paleothermometry and paleoaltimetry of the Lhasa block, southern Tibet*

Chicago Center for Teaching Certificate Program 2016

University of North Carolina at Chapel Hill 2011

B.S. Cum Laude with Honors in Geology

Thesis: *A study of the temporal evolution of the El Capitan granite using high-precision U/Pb zircon geochronology*

PROFESSIONAL APPOINTMENTS

Assistant Professor, Department of Geosciences, Pennsylvania State University 2020-present
Graduate Faculty appointment in the Biogeochemistry program

Barr Foundation Postdoctoral Fellow, California Institute of Technology 2018-2020

Postdoctoral Research Associate, University of Colorado, Boulder 2017-2018

Visiting Faculty, Miami University Geological Field Station (Idaho & Wyoming). June-July 2016

Physical Scientist, U.S. Geological Survey, Northern Rocky Mountain Research Center 2011

PUBLICATIONS

In Review Journal Articles (‡ student advisee)

‡Scheller, E.L., Grotzinger, J., and **Ingalls, M.**, Guttulatic calcite: A carbonate microtexture that reveals frigid formation conditions, *Geology*, in review.

‡Scheller, E.L., et al., including **Ingalls, M.**, Formation of magnesium carbonates on Earth and implications for Mars, *JGR: Planets*, in review.

Ingalls, M., Fetrow, A.C., Snell, K.E., Frantz, C.M., and Trower, E.J., Lake level controls the recurrence of giant stromatolite facies, *Sedimentology*, in review.

Refereed Journal Articles (‡ student advisee)

Bernasconi, S.M., et al., including **Ingalls, M.**, (2021) InterCarb: A community effort to improve inter-laboratory standardization of the carbonate clumped isotope thermometer using carbonate standards, *G³*, *accepted*.

Ingalls, M., Snell, K.E., (2021) Tools for comprehensive assessment of solid-state and water-mediated alteration of carbonates used to reconstruct ancient elevation and environments, invited contribution to *Reaching New Heights: Recent Progress in Paleotopography* special issue of *Frontiers in Earth Sciences*, doi: 10.3389/feart.2021.623982.

Ingalls, M., Blättler, C., Higgins, J., Magyar, J.S., Eiler, J., and Fischer, W.W. (2020) P/Ca in carbonates as a proxy for alkalinity and phosphate levels, *Geophysical Research Letters*, 47(21): e2020GL088804. doi: 10.1029/2020GL088804.

FUNDING, FELLOWSHIPS, & AWARDS

Funding to date = \$979,837

Gladys Snyder Junior Faculty Grant [\$5000]	March 2021-February 2022
“Creation of teaching collections and an accompanying virtual field trip to support the development of a sedimentology and stratigraphy course” Awarded to Miquela Ingalls	
US Environmental Protection Agency – Region 4 [\$322,946]	May 2021-April 2024
Grant number TBD, “Quantifying the impact of shallow wastewater injection on groundwater nutrient fluxes to surface waters in the Florida Keys National Marine Sanctuary” Awarded to Miquela Ingalls	
National Science Foundation – Geobiology and Low-Temperature Geochemistry [\$184,321]	July 2020-2022
EAR 1826805 “A predictive framework for micro-scale carbonate diagenesis: Towards more accurate reconstructions of global climate and environmental change” Awarded to Miquela Ingalls and Kathryn Snell (CU-Boulder)	
National Science Foundation – Sedimentary Geology & Paleobiology [\$317,570]	Sept. 2018-Aug. 2021
EAR 1826850 “Collaborative Research: Assessing the Sensitivity of High-altitude Environments to Global Increased Temperature as Recorded by Lacustrine Microbialite Carbonates” Awarded to Kathryn Snell and Elizabeth Trower; M. Ingalls wrote proposal as postdoc ghost co-I	
Barr Foundation Postdoctoral Fellowship, Caltech [\$132,000]	2018-2020
Agouron International Geobiology Course geobiology research support [\$1500]	2017
Association for Women Geoscientists Sand Award [\$500]	2017
Agouron International Geobiology Course postdoctoral support [\$4000]	2017
Sigma Xi Grants-in-Aid of Research [\$1000]	2017
Geological Society of America Graduate Student Research Grants [\$3800]	2015, 2017
Chicago Center for Teaching Fellowship [\$3600]	2016-2017
Physical Sciences Division Undergraduate Teaching Award, nominated by students	2016
National Science Foundation Graduate Research Fellowship, Honorable Mention	2012
USGS-National Association of Geoscience Teachers Cooperative Field Training Fellowship	2011
Carolina Undergraduate Research Fellowship [\$3600]	2010-2011
James Johnston Scholar of the College; UNC-Chapel Hill [full academic scholarship]	2007-2011

Miquela Ingalls

TEACHING

Pennsylvania State University, *Instructor*

GEO SC 497 - Carbonate Seminar: Carbonate chemistry and paleoenvironments	Fall 2020
GEO SC 439 - Principles of Stratigraphy	Spring 2021
GEO SC 1 - Physical Geology	Fall 2021
GEO SC 518C – Isotopes in Oceans and Climate	Fall 2021

University of Colorado, Boulder, *Co-instructor*

Spring 2018

Stable Isotope Tools

- Created course material and lectured on principles of carbon, oxygen, and carbonate clumped isotope theory and applications

Chicago Center for Teaching, *Fellow*

2016-2017

- Teaching assistant for graduate course on College Teaching and Course Design; mentored 7 graduate students in designing college courses and provided feedback on practice teaching sessions and statements of Teaching Philosophy
- Created curricula on inclusive teaching in the physical and biological sciences, active teaching strategies, Constructivism, and backward course design

Miami University Geological Field Station, *Instructor*

2016

- Co-instructed a 4-week field course in geological mapping, cross section composition, and field techniques for 27 undergraduate students from across the country
- Developed students' four-dimensional reasoning skills in the field and in the classroom

The University of Chicago

2012-2017

Teaching Assistant or Head Teaching Assistant for nine courses, including:

Evolution of the Solar System and the Earth, *Head Teaching Assistant, 1 term*

Physical Geology, *Head Teaching Assistant, 2 terms*

- Guest lectured on plate tectonics, structural geology and crustal deformation

Global Tectonics & Structural Geology, *Teaching Assistant, 4 terms*

- Designed and implemented a structural geology lab course consisting of 9 labs and a final mapping project [received a University teaching award for this course]
- Individual Teaching Consultation through the Chicago Center for Teaching; received high praise for my execution of the observed lab period (complete evaluation available upon request)
- 90-minute lessons for ~12 upper level undergraduate and graduate students
- Discussion and problem set sessions with 1-5 students

TA First-year training, *Instructor, 1 term*

Field Geology: Death Valley & Owens Valley, CA, *Teaching Assistant and Trip Organizer, 1 term*

- Co-designed a geology field course with two UChicago faculty

Ice Age Earth, *Teaching Assistant, 1 term*

Duke Talent Identification Program, *Teaching Assistant*

2009

Science on the Appalachian Trail: Geology and Environmental Science

SERVICE & OUTREACH

Penn State Dept. of Geosciences

<i>Committee Member, Graduate Program Committee</i>	2020-present
<i>Committee Member, Graduate Admissions Committee</i>	2020-present
<i>Pod Member, Unlearning Racism in the Geosciences</i>	2021-present

Miquela Ingalls

Geological Society of America

Committee Member, Graduate Student Research Grants Committee 2018-present
Mentor, "On to the Future" program 2015-2016

Reviewer

Journals: Nature Geoscience; Nature Communications; Science Advances; Geology; Geological Society of America Bulletin; Geophysical Research Letters; Earth and Planetary Science Letters; Chemical Geology; Geochimica et Cosmochimica Acta; Paleogeography, Paleoclimatology, Paleoecology; Basin Research; Climates of the Past

Funding Agencies: National Science Foundation EAR PF; National Science Foundation EAR SedPaleo, Low-T Geochem & Geobio, Marine Geology & Geophysics; American Chemical Society Petroleum Research Fund; NASA; Geological Society of America (2018-21); NASA FINESST panel 2021

Letters to a Pre-Scientist

STEM professional pen pal with a 7th grade URM student in South Carolina 2020-2021

The University of Chicago Dept. of the Geophysical Sciences

Committee Chair, Graduate student-selected seminar series 2016-2017
Organizer, Exposition of Graduate and Undergraduate Research 2015

Museum of Science & Industry

Facilitator, Robotics Special Exhibit 2015-2016
"Expert", ScienceWorks Career Fair 2014, 2015
Facilitator, School Field Trips 2011-2012

TECHNICAL EXPERIENCE

Isotope ratio mass spectrometry Gas Chromatography with continuous flow isotope ratio mass spectrometers (IRMS; Delta V, Thermo Scientific) Elemental Analyzer (EA) and GasBenchII; magnetic sector dual inlet IRMS (MAT253 and MAT253+, Finnigan)

Thermal ionization mass spectrometry VG Sector 54 TIMS with eight adjustable faraday cups; Radiogenic isotope geochemistry; U/Pb zircon geochronology of igneous plutons; Sr/Rb analysis of human teeth, fossils, and other biogenic materials; class 1000 and class 100 clean lab facilities; mineral separation

Analytical techniques Carbonate digestion on glass vacuum line for analyses of multiply substituted isotopologues of CO₂; Organic carbon and oxygen in biogenic and sediment samples; inorganic carbon and oxygen in carbonates from fossils, metamorphic rocks, and sediments; field emission scanning electron microscopy (Zeiss Supra35 and TESCAN LYRA3 with electron backscatter diffraction, secondary and backscattered electron detector); optical petrography and cold-cathode luminescence petrography (Technosyn cold-cathode luminiscope, Cambridge Imaging) for characterization of carbonate alteration; Secondary ionization mass spectrometry, Cameca IMS-7fGEO

Facilities

Caltech, Division of Geological and Planetary Sciences, Postdoctoral Fellow; Directors: Drs. John Eiler, Alex Sessions, Woody Fischer, and John Grotzinger (June-August 2017; August 2018-2020)

University of Colorado, Boulder, Dept. of Geological Sciences, Postdoctoral Research Associate; Directors: Drs. Katie Snell and Brett Davidheiser-Kroll (2017-present)

Miquela Ingalls

University of California, Santa Barbara, Dept. of Earth Sciences, Visiting Researcher; Director: Dr. Brad Hacker (November 2017)

Miami University, Center for Advanced Microscopy and Imaging, Visiting Researcher; Director: Dr. Richard Edelman (2012, 2013, 2016)

Miami University, Dept. of Geology & Environmental Earth Science, Visiting Researcher; Directors: Drs. John Rakovan & Brian Currie (2016)

The University of Chicago, Dept. of the Geophysical Sciences, Graduate Student Researcher; Directors: Drs. Albert Colman, Gerard Olack, and Nicolas Dauphas (2012-2017)

University of North Carolina, Chapel Hill, Dept. of Geological Sciences, Undergraduate Student Researcher; Director: Dr. Drew Coleman (2007-2011)

PROFESSIONAL ACTIVITY

International Geobiology Course —Caltech, Agouyon	2017
Secondary Ion Mass Spectrometry Workshop —Arizona State University, Tempe, AZ	2017
Geological Society of America Short Courses	
Organic and stable isotope geochemistry in the 21 st century	2016
Strabospot for Sedimentary Field Geology	2018
Building Future Faculty Program —NCSU, Raleigh, NC	2016
Highly selective national program for early career academics	
Chicago Center for Teaching	
Independent Teaching Consultation (Structural Geology)	2016
College Teaching, Advanced Pedagogy Course	2015
Teaching@Chicago Conference	2015, 2016
Seminar & Workshop on the Teaching Portfolio	2014
Seminar & Workshop on Course Design	2014
Presenting Data and Information , Edward Tufte—Chicago, IL	2015
International Clumped Isotope Workshop – Harvard University, Cambridge, MA	2012
The Queen Mary, Caltech, Long Beach, CA	2019
Geology Field Trips/Field Seasons	
Great Salt Lake, Fayetteville Green Lake, and Laguna Bacalar lacustrine carbonate sedimentology, aqueous geochemistry and geobiology	2017-present
Modern and Ancient Carbonate Environments: San Salvador, Bahamas	2016
Trip leader: Susan Kidwell and Michael LaBarbera, The University of Chicago	
Paleoaltimetry of the Lhasa Block, Tibet	2014, 2015
Geomorphology, Active Tectonics, and Landscape Evolution in the Mid-Atlantic Region	2015
Trip leader: Frank Pazzaglia, Lehigh University	
Topics in Stratigraphy and Biosedimentology: Salton Trough, California	2015
Trip leader: Susan Kidwell, The University of Chicago	
Geology of Death Valley & Owens Valley, California	2014
Trip leaders: David Rowley, Mark Webster, and <i>Miquela Ingalls</i> , The University of Chicago	
Lehigh University Geology Field Camp, Utah & Colorado	2010
Instructor: Dr. Frank Pazzaglia	
Magma ascent rates, igneous petrology: Sierra Nevadas, CA	2010
Rockfalls in Yosemite Valley, CA	2009
PI: Greg Stock
